THE SAFER WAY
TO CUT.

TECHNICAL DATA SHEET

SECUMAX 320 MDP
NO. 32000771

Safety technology

Concealed blade – a maximum degree of safety
The SECUMAX 320 MDP blade is not an open one, but is hidden from people and goods. This provides you with a maximum degree of safety from cut injuries and from damage to goods.

SAFETY KNIFE WITH CONCEALED BLADE, ESPECIALLY FOR CUTTING FILM AND PLASTIC STRAPPING BAND.

Order No. 32000771.02

Film cutter, state-of-the-art. Metal detectable.
The SECUMAX 320 MDP instantly impresses with its striking design. Looking closer, its inner values will also become apparent. The safety knife is made of metal-detectable plastic, a must-have in sensitive industries. Its ergonomic handle ends in a blade head specially designed for opening film and strapping bands as well as splitting adhesive tape. Its stainless steel blade is concealed.

Metal detectable
The SECUMAX 320 MDP is metal detectable and especially suited to companies and sectors processing sensitive materials. Even the tiniest fragment of the knife can be traced before any contamination of your products takes place.

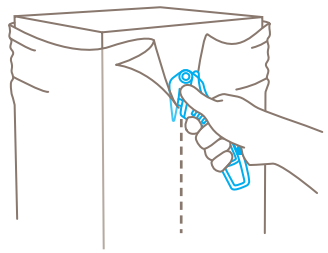

Safety first
The concealed blade and rounded knife nose reliably protects you and your products. This also applies to all edible items: blade and handle are all food-safe.

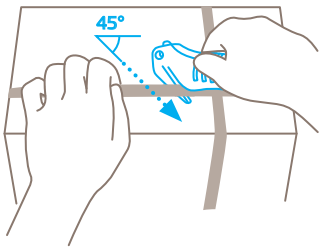

Easy blade change
Blade changing or turning is quick and easy: simply lift up the blade change button and remove the cover. The 4-cutting edge blade is then instantly accessible to you. It is held in place by a magnet.

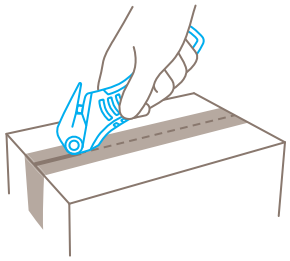

Perfect ergonomics
The rounded handle fits snugly in your hand for effortless cutting especially of film and strapping band. Your hand and arm also benefit from the set cutting angle which supports you in your tasks.

Two splitting depths
Just two examples: The cutting channel is formed so that your safety knife moves away the freshly cut material even faster. Diagonal cuts are also easier than ever to perform. Your benefits: Less effort required for the task.

USAGE

PRODUCT FEATURES

Technical features

- Maximum safety
- Metal detectable
- X-ray detectable
- Safer blade change (with magnet)
- Abrasion resistant
- Very ergonomic
- 4-cutting edge blade
- Cutting depth
- Tape splitter
- For right and left handers
- Lanyard hole
- Stainless

Main cutting materials

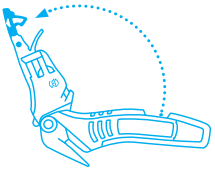

- Wrapping, stretch, and shrink foil
- Layers of foil or paper
- Plastic strapping band
- Cardboard: 1-ply
- Tape
- Bagged goods
- Textile, material
- Felt
- Safety belt
- Leather
- Coated film
- Laminated film

Installed blade

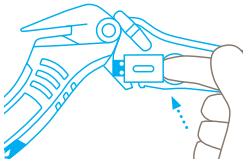

NO. 192043
0,40 mm, deep-edged, stainless

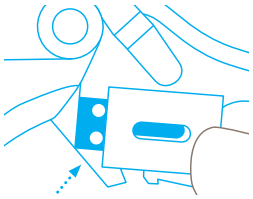

BLADE CHANGE

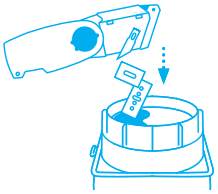

Fully open the blade carrier from the handle using the blade change button.

Place the thumb on the blade symbol and open up the blade cover. Remove the blade from the **side**. Turn or change the blade.

Then align the blade **to the left edge** and insert exactly onto the locating lugs.

Close the blade cover and **fold the blade carrier back** into the handle letting the blade change button **audibly snap** into place.

SECURITY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please always use the product carefully for manual cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard. As an additional safety measure, we recommend wearing cut-resistant gloves..

2. Special application instructions to avoid the danger of injuries: Always take great care when handling the product. Before first use, familiarise yourself with the safety technology and how it works. Before every further use, check the knife for proper functioning. Only use cutting tools that are in perfect condition with sharp, clean and undamaged MARTOR blades. Also make sure that the knife's operation is not impaired by the material to be cut or by dirt or particle deposits around the blade. **CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade!** Do not place your free hand in the line of cutting and never cut directly towards you.

3. Replacement of spare parts: Replace any blades that become dull at the right time! Use only the replacement blades from MARTOR for this purpose. Dispose of old blades in a proper fashion. They should not be placed in a waste paper bin, as this poses a considerable danger of injuries. Never perform any repairs yourself. If the knife shows signs of aging or any other wear, e.g. which impair safety features, blade changing or usage, the knife must be taken out of service and replaced. Do not modify this product in any way. Modifications of any kind may impair product safety. CAUTION: The risk of injury caused by manipulation of this product is extremely high.

4. Non-use of the knife: Always secure the blade in such a way (depending on product type) that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: To guarantee a long service life, always keep the knife clean and do not expose it to unnecessary soiling and humidity.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER M
NO. 9921

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER M is a robust holder that allows you to carry all midsize MARTOR knives as well as our safety scissors at all times. In addition, the interior and exterior pockets are designed to allow you to load different tools: for example you can carry an extra safety knife, a pen and a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.

BELT HOLSTER XXL
NO. 9924

The BELT HOLSTER XXL is a real space miracle. With it, you not only transport your MARTOR cutting tools safely from A to B. All other work utensils are always within reach. The BELT HOLSTER XXL has two large compartments: the inner one is lockable, the outer one is equipped with a knife safety device. You are also well equipped when it comes to carrying options. Choose flexibly between strap, Velcro fastener and clip.

TOOL RETRACTOR
NO. 9960

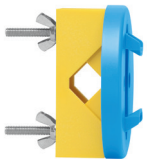

The TOOL RETRACTOR protects your cutting tool from loss and from falling down. Its core is the heavy-duty Kevlar cord that can be extended up to 90 cm. As soon as you let go of your knife, it is returned to you via the flexible cord. Your hands are free for other activities – the knife always remains at hand. The carabiner is designed for your belt loop, the Kevlar look at the other end fits through the eyelet of your cutting tool.

USED BLADE CONTAINER
NO. 9810

You can fill the USED BLADE CONTAINER with the content of your SAFEBOX. Or directly with your used blades. When the box is full, turn the lid until it shuts. Now the box cannot be reopened. The next step is to safely and completely dispose of the filled USED BLADE CONTAINER as normal waste.

WALL MOUNT BRACKET USED BLADE CONTAINER
NO. 9845

Include it in your order now! With this mounting bracket you can fix your USED BLADE CONTAINER to a central location. Use the clamp and screws and nuts supplied with the product to attach it to either a pipe or a rod.

SAFEBOX
NO. 108000

The SAFEBOX is large enough to store a large number of used blades safely. And at the same time, it is compact enough to carry with you. The two slits are not only used for filling, but also to „shorten" your snap-off blades. When your SAFEBOX is full, empty it into your USED BLADE CONTAINER.

MDP TEST CARD SET
NO. 9910

There are five cards with different plastic balls in the MDP TEST CARD SET – between 2.5 mm and 8 mm in size. The material is identical to the plastic used in our metal-detectable safety knives. You can reliably test the effectiveness of your metal detectors using the plastic balls.
